

How to Write Equations

How to write equations using OpenOffice:

1. Once you click the OpenOffice icon, choose "Formula" as your choice of document.
2. You should see the "Elements" menu box located at the top right corner.
3. If you go to the following page:
https://wiki.openoffice.org/wiki/Documentation/Reference/Math_commands
You can find lists of "operation" "command" and "display" there to help you with your equation writing.

How to write equations using Google Drive:

1. Open a document
2. Click the "insert" drop-down menu and select "equation."
3. Select the mathematical symbol you want to add from the menu options.
4. Click the symbol you'd like to include, and add numbers or substitute variables in the box.
5. More info can be found at: <https://support.google.com/drive/answer/160749?hl=en>

How to write equations in Microsoft Word:

1. On the "insert" tab, in the "symbols" group, click the arrow next to "equation."
2. Click the equation that you want, or click "insert new equation" to type an equation
